LOVE IN VERONA COLLECTION

Inspired by the city of Verona,
symbol of undying love inspired by the love story between Romeo and Juliet

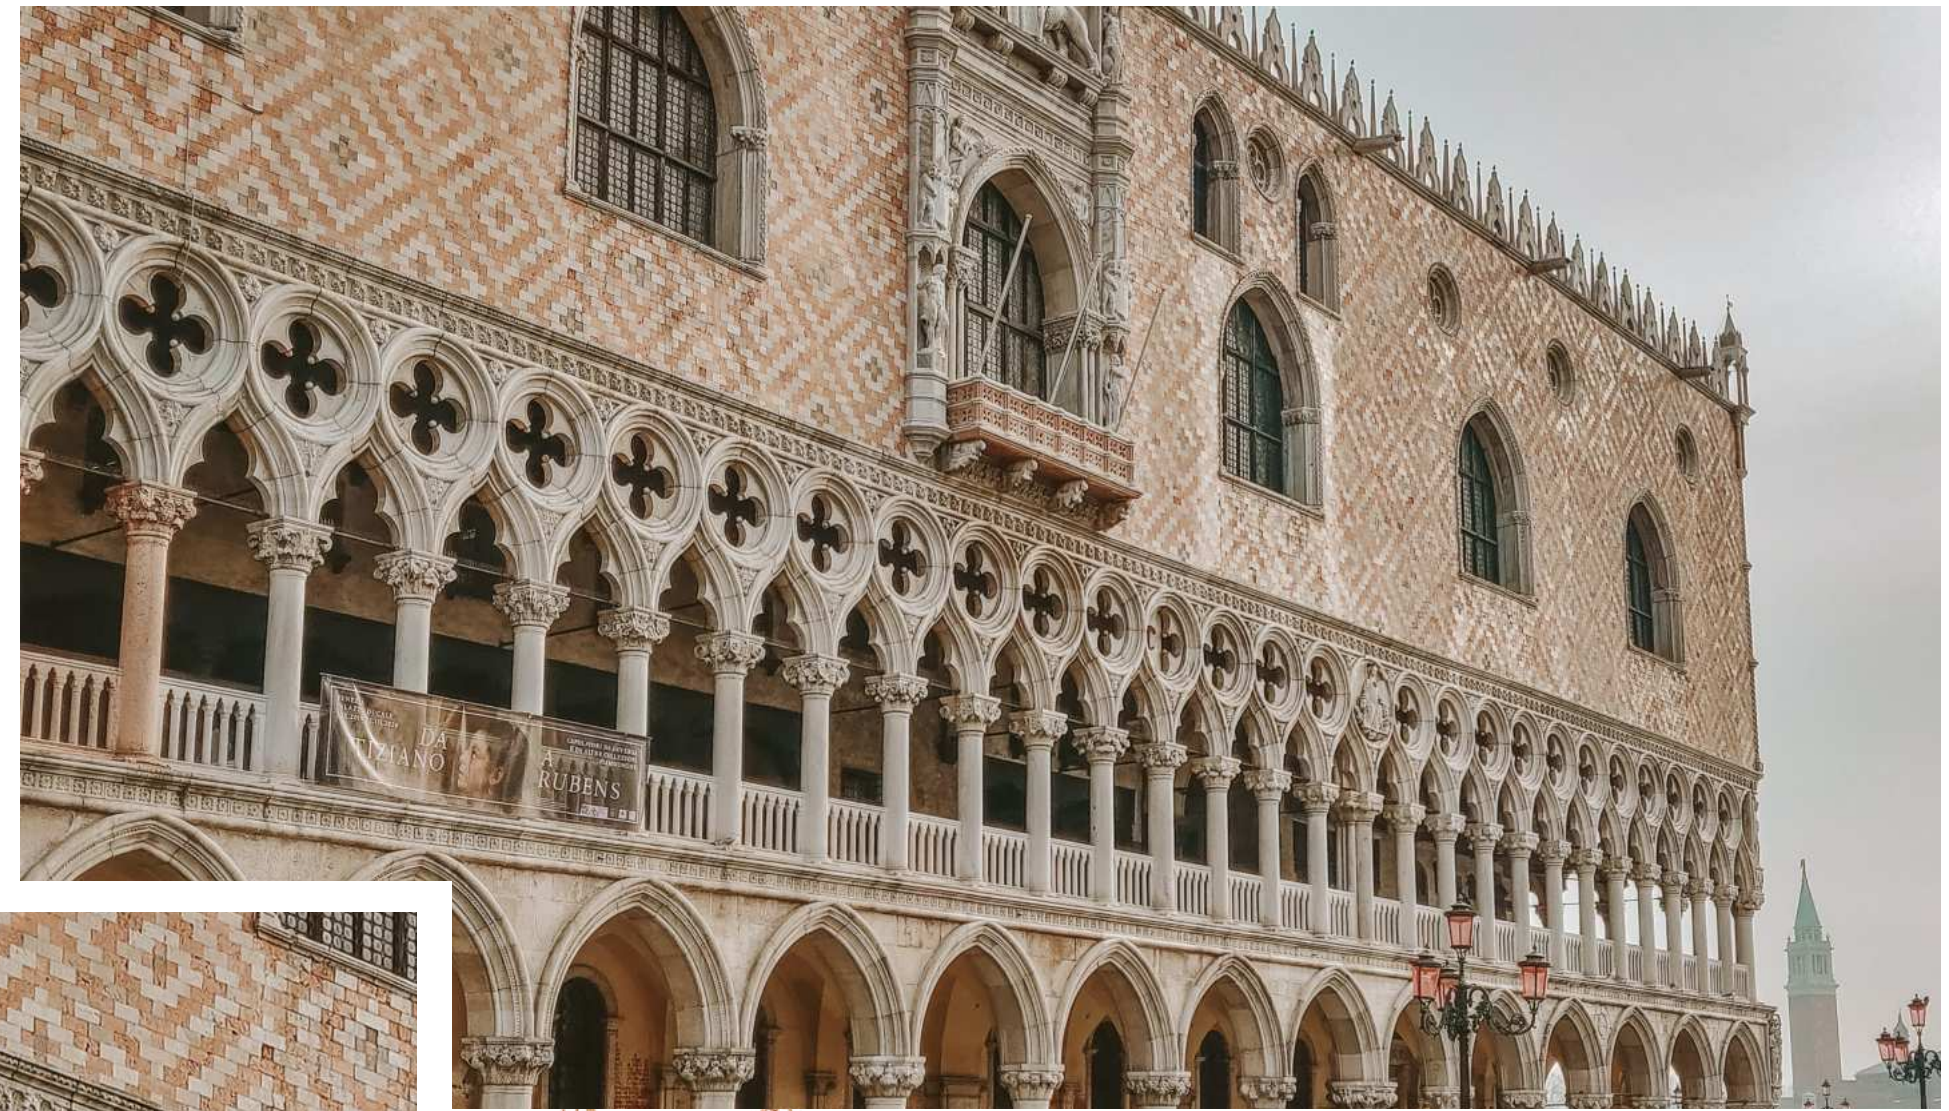

Love in Verona collection not only pay attention to details like
Triple Locking System for the catch but also in places that cannot
be seen from the outside

Noticed the flower motive and design on the inside of the bangle
fulfilling the value shared by Mr Coin himself that as a person we
have to be beautiful on the inside as well

PRINCESS FLOWER COLLECTION

TITANIUM PRINCESS COLLECTION

The Titanium princess combines 18k gold and the precious metal Titanium which helps in making the earring very light weight and easy on the ear loops

The satin finishing is achieved by using a diamond tipped sharp tool carefully and meticulously engraved line by line onto the surface
